About Client

A multinational consumer goods corporation with a huge portfolio of brands providing hygiene & consumer health products across fabric, home care, beauty, family care and more.

Business Challenge

- Multiple source systems generating enormous data

- Global SAP instance where country-specific changes were difficult to implement

- SAP upgradation was challenging due to the tedious internal approval process

- No in-house developer for SAP

- Implementation to be done through SAP PI only with XML mapping data & system

- Slow execution of more than 400+ test cases

Our Solution

- Integrated e-Way bill APIs with source systems

- Changed the existing architecture for accepting the client's XML format as per request and sending responses as per the acceptable format

- Streamlined the SAP side development: PI related changes within and outside SAP

- Regularly updated the test cases

Business Outcome

- ✓ Simplified generating, cancelling, and rejecting e-Way bills

- ✓ Reduced printing costs & time with consolidated e-Way bills generation

- ✓ Saved costs for ERP related changes & maintenance

- ✓ Faster execution of parallel supply chain processes via BOTs
