Business Challenge

- POS system unable to generate required QR code for ZATCA phase 1 implementation.
- Difficulty in maintaining unique series number on the billing invoice
- Difficulty in ensuring all B2C transactions are archived locally.

Our Solution

- Integration of POS with our system to generate QR code enabling phase 1 implementation.
- Generated unique sequence number for each transaction enabling 2-way integration for final billing and printing.
- Provided on-premises local archival solution to store all the data.

Business Outcome

- ✓ Reduced the TAT time providing high performance outcome.
- ✓ Generated e-Invoice at POS within response time of less than 1 second.
- ✓ Smoothened the entire process with negligible business impact.
