

The logo for Cygnets TaxTech, featuring the company name in a white sans-serif font with a teal swoosh underlining the 'y' in 'Tech'.

# Cygnets TaxTech

A conceptual image showing a grey robotic hand on the left and a human hand on the right, both pointing towards a central digital interface. The interface is composed of various data visualization elements like charts, graphs, and circular gauges, all rendered in a semi-transparent blue style against a dark blue background.

# Indirect Tax Compliance Platform

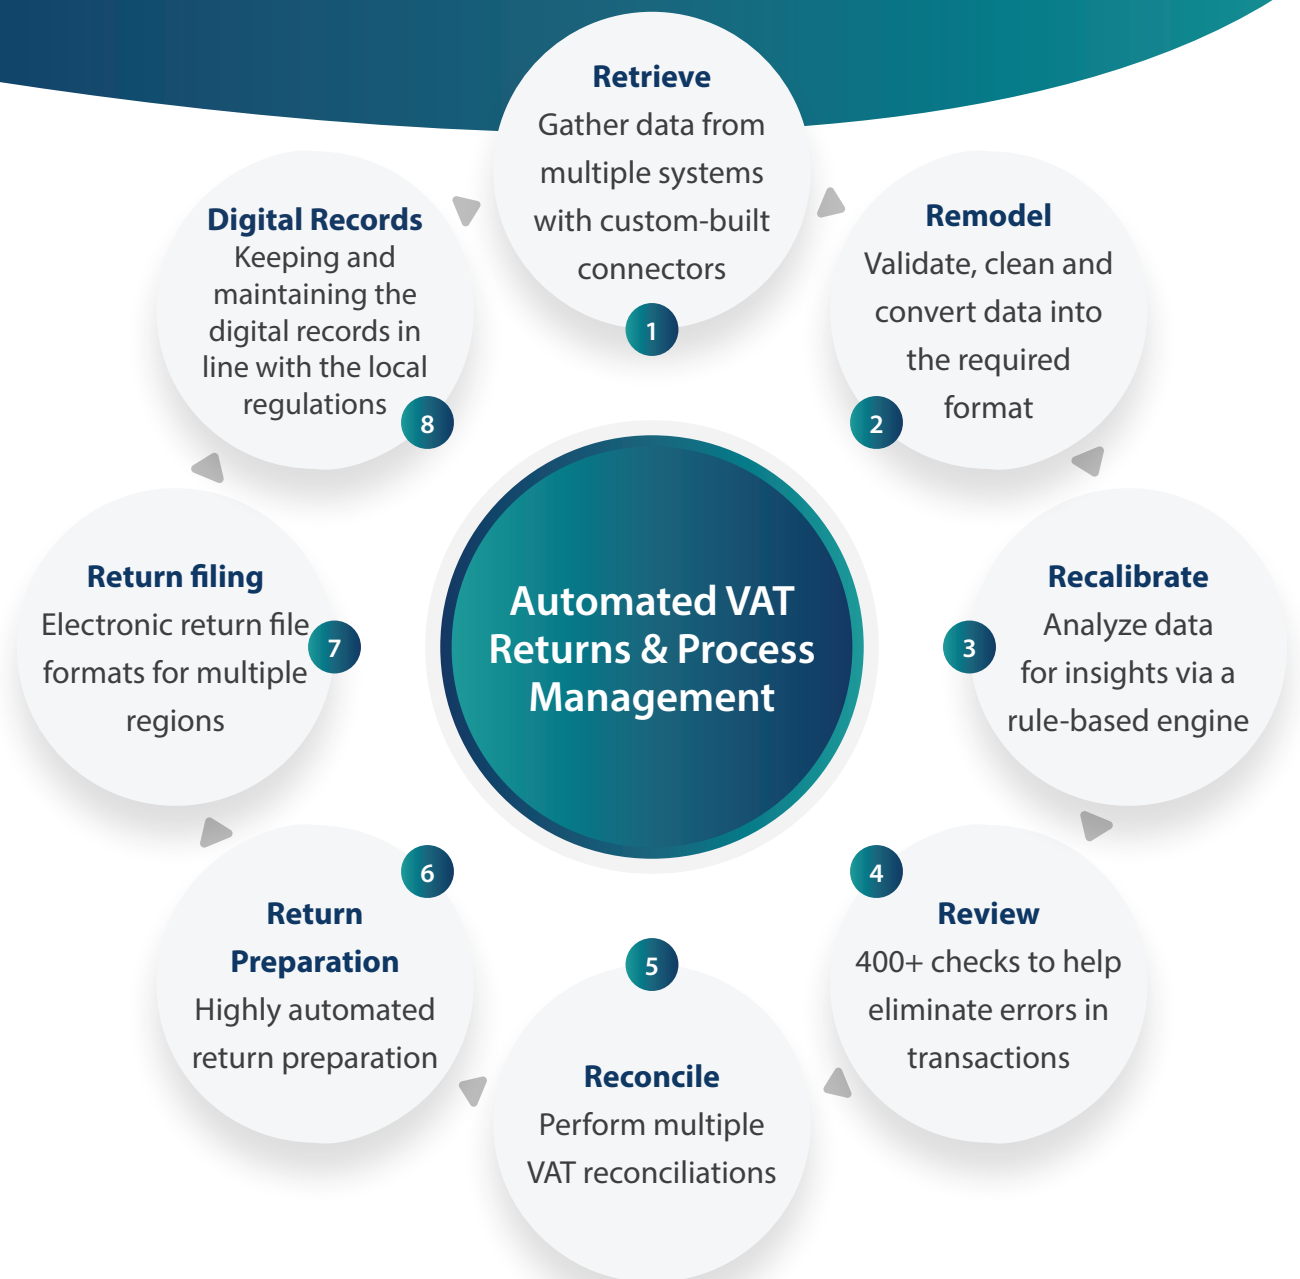

Helping businesses of all sizes achieve compliance by providing a centralized solution to accurately prepare and file indirect tax returns across multiple jurisdictions.

# Solutions

Cygnit TaxTech's Indirect Tax Compliance Solution provides an easy-to-use cloud application for organizations of all sizes to meet their VAT filings obligations. A comprehensive end-to-end solution encompassing many features:

Quick integration with one or many ERP systems to gather data in bulk

Automate multiple data sets consolidation for smooth VAT return preparation

Comprehensive validation and error checking on every transaction

Enhance data accuracy and enable improved hierarchical coordination with an inbuilt workflow management module

Management dashboard for complete control and transparency of VAT returns preparation and filings

Higher levels of risk management by providing detailed audit trails

Logic to support VAT Adjustments and Partial Exemption calculations

Enable VAT Group consolidation and filing functionality

# Benefits

Cygnit TaxTech's Indirect Tax Compliance Platform is built and supported by tax and technology professionals. The software is updated regularly for both tax and system logic ensuring full compliance with all jurisdictions. The solution will bring many benefits including:

1

Significant reduction in transaction errors

2

Less resource time spent on manual tasks

3

Eliminate reliance on spreadsheets

4

Less expert time needed to prepare a VAT return

We deliver a comprehensive, automated, cloud-based solution that is fast, accurate, and easy to use.
